Responsibility Today, Impact Tomorrow

At the Leipzig Marriott Hotel, our 'PlanT' initiative drives sustainable action by combining resource efficiency with active environmental care. For each stay in a designated PlanT room, we plant a tree—a program that allowed our team to plant 1,960 trees this past year alone. Our commitment also includes water-saving technologies, waste reduction, and the sourcing of sustainable products.

Our Green Key certification reflects our dedication to international environmental standards, featuring smart solutions like a closed-loop system for paper towels. Beyond ecology, we actively support social causes through Marriott's 'Serve 360' program, embracing a responsibility that goes well beyond the doors of our hotel.
